Miles Davis 1968-1975: Bibliography - Discography

Laurent Cugny

Nowadays, the bibliography about Miles Davis is very abundant. Along with Duke Ellington, he is the most written-about jazz musician. This bibliography is not far from exhaustivity for this period, probably without getting to it. The choice has been to sort it by type of texts (books, book chapters, thesis, articles). In the case of republications, only the most recent reference has been kept.

The discography considers only record-sets published from the 1990's, with no mention of originally published albums.

This bibliography has been originally published in CUGNY, Laurent: *Électrique – Miles Davis, 1968-1975*, Dijon, Éditions Universitaires de Dijon, 2019. Republished with permission.
